

VIVEK EARTHING PVT. LTD.

Expert Advice & Reliable Solutions.

Earthing Gel Datasheet

Overview:

Vivek Earthing Gel is a high-quality, effective solution for both personal and professional earthing needs. Designed to provide a stable and strong connection to the earth, this gel enhances the performance and longevity of earthing systems. Made from non-toxic, safe, and conductive materials, it ensures reliability even under harsh conditions. Whether you are looking to improve your earthing system at home or for commercial use, this product stands out as the best choice for optimum results.

Specifications:

- Item Weight: 5kg
- Ingredients: Conductive, non-toxic materials
- Resistance: 0.5 Ohm to 4 Ohm

Key Features:

- **Easy to Use:** Simply apply a small amount of gel to the earthing pit or electrode, and it will form a strong and stable connection to the earth.
- **Long-Lasting:** The gel's formula is designed to retain its conductivity for long periods, ensuring performance even in extreme weather conditions.
- **Improves Earthing Performance:** Enhances the efficiency of your earthing system, helping you receive the full benefits of earthing.

Applications:

- Home Use
- Commercial & Industrial Use
- Utility Systems

Advantages:

- **Superior Conductivity:** The gel provides a high level of conductivity, improving earthing efficiency and reducing electrical hazards.
- **Durability:** Designed to withstand harsh environmental conditions, ensuring long-lasting effectiveness.
- **Non-toxic and Safe:** Made from eco-friendly and non-toxic materials, safe for both users and the environment.

Vivek Earthing Pvt. Ltd. An ISO 9001 - 2015 Certified Company

This datasheet provides detailed information about the **Earthing Gel** in various sizes, ensuring all relevant technical and application-specific details are covered for users and installers.
